

February 22, 2017

Dear Parent/Guardians:

It has recently been brought to our attention that some of our students have been contacted by representatives who promote S-Trip. Representatives often initiate contact directly with students through Facebook and promote 'grad' trips. S-Trip representatives look for student promoters and offer to organize trips for groups of students.

It is important that you know that S-Trip organizers have not contacted any adult representatives from the school. **Sands Secondary is not in any way connected to S-Trip, nor does the school endorse any form of trip associated with this company.**

As always, our primary concern is the safety and well-being of our students. As parents, I urge you to investigate the details of S-Trip, speak with your child and make informed decisions. If you have any questions, I encourage you to contact me or our Vice-Principal, Ms. Macintosh.

Sincerely,

Mr. A. Akune
Principal
